

REUSING SOME SLIDES FROM PART 3, CHANGES IN BLUE
Reason: Careful Study of Part 3 could have led to
recognize the true interpretation

The Boy Who Knows ~~the~~ Time

Part 4 - The **True** Interpretation

Keep this year in mind!

And even more this year!

Since our sister in Christ had her dream about *The Boy Who Knows the Time* in 2019, we marveled about the exact timing that was given in her dream.

The 4th Try

We understood that the dream was about the soon-to-be-discovered Horologium clock. It had predicted exactly this discovery that we made in 2021. For us, **this fact is clear proof that the dream was given by God.**

But so far, all intents to decipher the exact time, to the second, that the Boy had given in the dream have failed.

The Dream, Again

Old Typewriters
July 9, 2019

In my dream, I had had a vision, and this was the vision.

I was in an antiquated office; it had typewriters that looked very old.

*Suddenly I turn and two keys that are joined by a ring are attracted to a rag, so it seems that under that rag there is a magnet. When I lifted it, it was not a magnet but a clock that marked 3, but I could not quite memorize the minutes . . . it seemed to be 10 minutes. I went down the stairs and asked someone to give me the time, and the person refused to give it to me, once again I asked a boy and he told me it is **3:13 and 43 seconds**, and in that moment, I woke up.*

Then future comets BB and ?

The Great Comet

The 1st key of our sister's dream

In 2021, we were intrigued by the entry of comet C/2014 UN271 (Bernardinelli-Bernstein) into the Horologium constellation to write several articles about this biggest comet ever discovered.

So far, we had not considered that there could be other clocks of God than the Orion and the Mazzaroth Clocks.

3 O'clock

... it was not a magnet but a clock that marked 3, but I could not quite memorize the minutes ... it seemed to be 10 minutes. . .

It is remarkable that the Horologium pendulum clock shows 3 o'clock with its star lines, while the minute pointer of the artwork shows about 10 minutes.

The dream emphasized 3 o'clock, the hour marker!

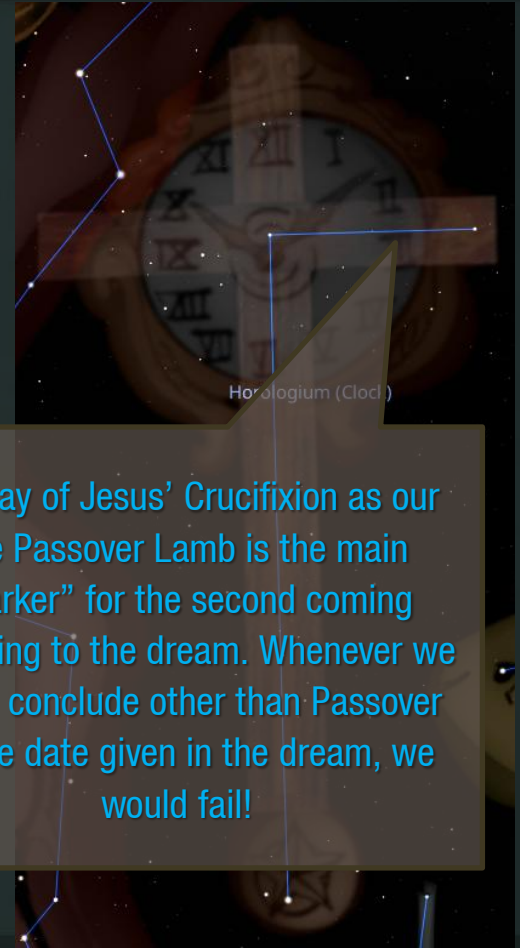

The Hours of the Cross

We recognized that the clock was showing important times of Jesus' crucifixion...

6 o'clock when the morning judgments had begun, and 3 o'clock when Jesus gave up His Spirit.

Therefore, we began to see the importance of the dream in relation to Jesus' second coming.

The day of Jesus' Crucifixion as our true Passover Lamb is the main "marker" for the second coming according to the dream. Whenever we would conclude other than Passover for the date given in the dream, we would fail!

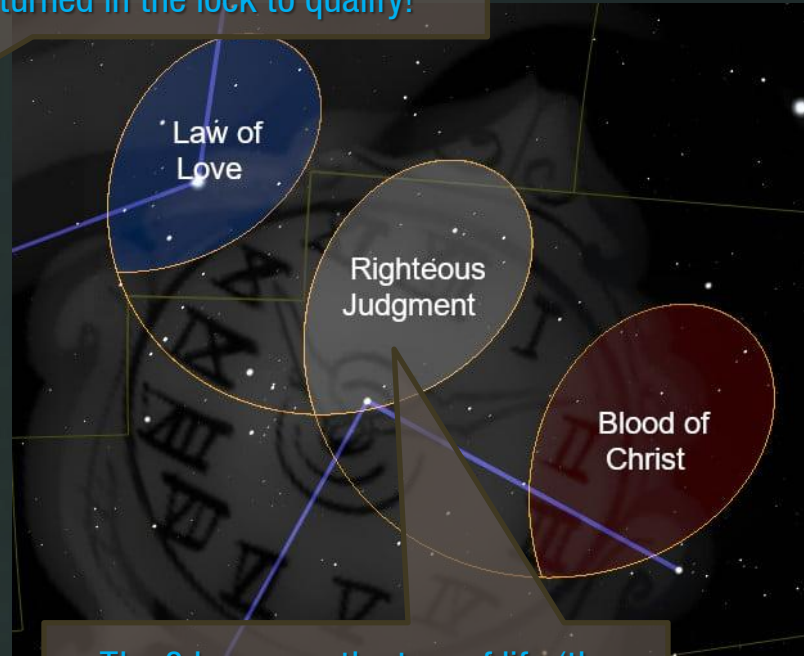

Time Went By

Faithfully, we reported about the year loops that comet BB formed between 2021 and 2023, always more anxious to see the second coming fulfill in one of the loops, especially the last one.

But BB left the Horologium without Christ having manifested Himself in the opportunities when BB was at or near the 3 o'clock pointer.

We saw the leaves of the tree of life withering, but winter came and we weren't saved.

A key must be turned in the lock to qualify!

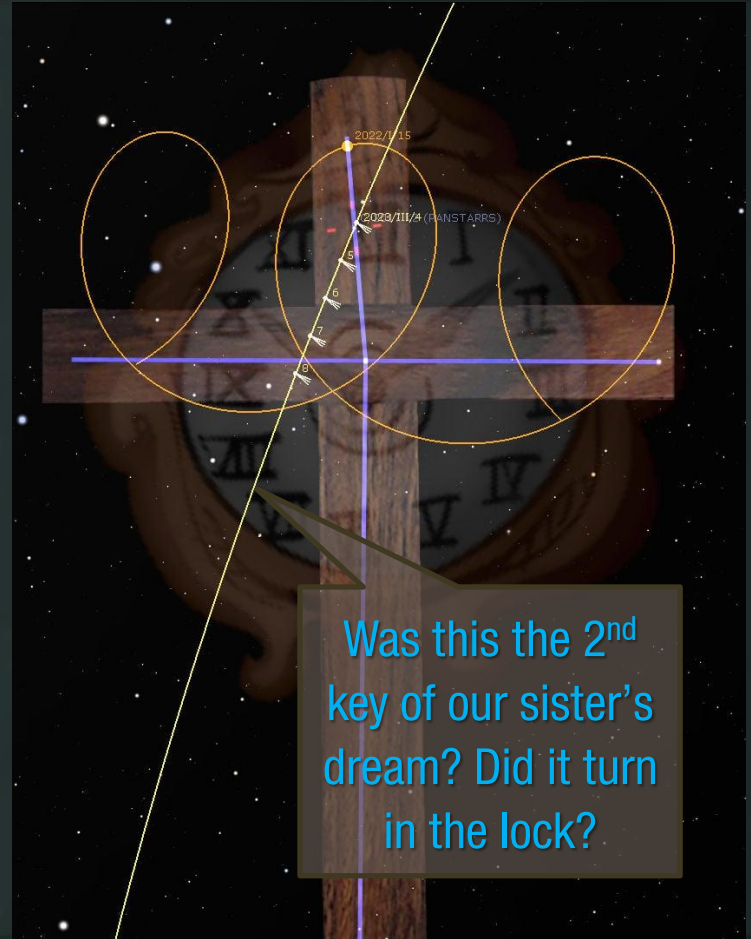

The 3 leaves on the tree of life (the Cross) show a certain rhythm or heartbeat of the Three Persons of the Godhead

Another Comet

Suddenly, by the end of February 2023, the last year of BB in the Horologium, we gained hope when we saw another huge comet entering the Horologium: C/2017 K2 (PANSTARRS).

Would it regrow the leaves of the tree of life and show 3:13:43?

Unfortunately, it did not even touch the 3 o'clock pointer and left the constellation already in April 2023.

The Sign of the Son of Man

Then something marvelous happened:
Another big comet C/2022 E3 (ZTF)
would also enter the Horologium but
even more remarkable...

Together with K2 it formed the shape of
a huge fish in the heavens and the
signature of Alpha and Omega.

No doubt! What we had discovered
must have been the sign of the Son of
man and the sign of Jonah!

E3 entered the Horologium on Jan 15, 2024, 6 years
incl. after the dream year. Since then, it TURNS
around the clock constellation: the 2nd key!

The Great Fish

E3 entered the Horologium in January 2024 while K2 was starting its trajectory in Orion.

We thought the great fish would have fully formed even with its smiling mouth on May 28, 2024, (touching Jesus' resurrection anniversary), when E3 struck the 6 o'clock pendulum for the second time.

But was this 3:13:43? The time passed and we were disappointed once more.

What was K2 then? Together with E3, it formed the Alpha, the RING of the sign of the Son of man. 2 turning keys on 1 ring!

New Hope for Our Hearts

On Jesus' crucifixion anniversary on May 25, 2025, another comet that had made headlines, C/2024 G3 (ATLAS), would pass through the Horologium constellation that indeed seemed to be **a great magnet** because it attracted so many comets.

Moreover, it had formed the "Heart of the Father" crossing three symbols for the Cross of Jesus in heaven even there where Sgr A* is located.

My Heart Dream

But shortly before this “heart sign” would be fulfilled, I received a dream on Nevis island. In the dream, Jesus told me that I had to inform His bride that He would not be able to come to the meeting point at that time.

I should write on the upper part of an alarm clock three times...

*With all my heart
With all my heart
With all my heart*

The dream was given on April 11, 2024, just a day after true new year according to God’s calendar. Again, the number 3 was emphasized!

to inform His bride about the missed date.

Three Delays

What would the 3 times *With All My Heart* mean?
Was it just pointing to the 3 crosses that G3 would pass?

Let's think twice:

- ✓ I should write in the upper part of a specific alarm clock, which must be the Horologium.
- ✓ Three times Jesus would reassure His bride of His coming and apologize for His delay.
- ✓ **The missed date just meant a delay, not failed love!**
- ✓ We have seen so far, 4 comets in the Horologium that have failed to show 3:13:43: BB, K2, E3, and G3.
 - **Could it mean that one of those 4 comets would NOT fail in the future?**

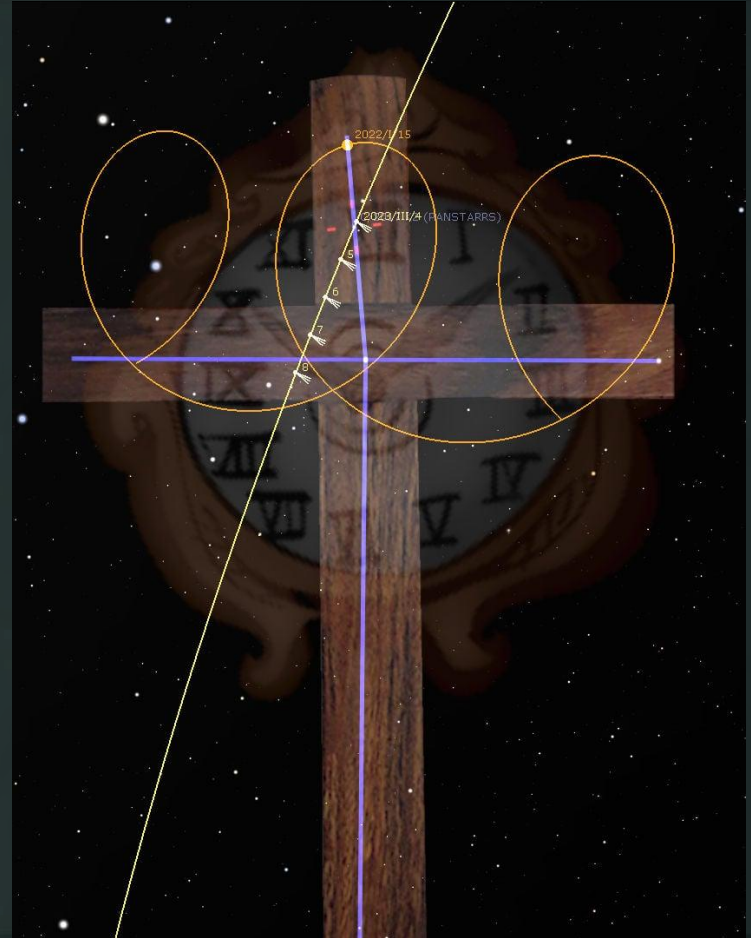

3 TIMES THE HEART(BEAT) OF GOD!
Could this point to the strange rhythm
of 3 years that we saw in the
Horologium Clock/Cross?

The Great Reset

Here we leave off the old slides and come to the true interpretation putting together all the observations in the years since 2019 when the dream of our sister was given.

Remember the KEY years... BB entering the Horologium in 2021 turning for 3 years there. K2 didn't qualify as key, but E3 did when it entered the Horologium in 2024, 3 years after BB.

The Rhythm

What do those years 2021 and 2024 have in common so that we would understand that they are called “keys”? And what do those key years unlock?

Obviously, there is a 3-year rhythm even if we add our sister’s dream year 2019 to the calc.

2019, 2020, 2021 KEY
2022, 2023, 2024 KEY

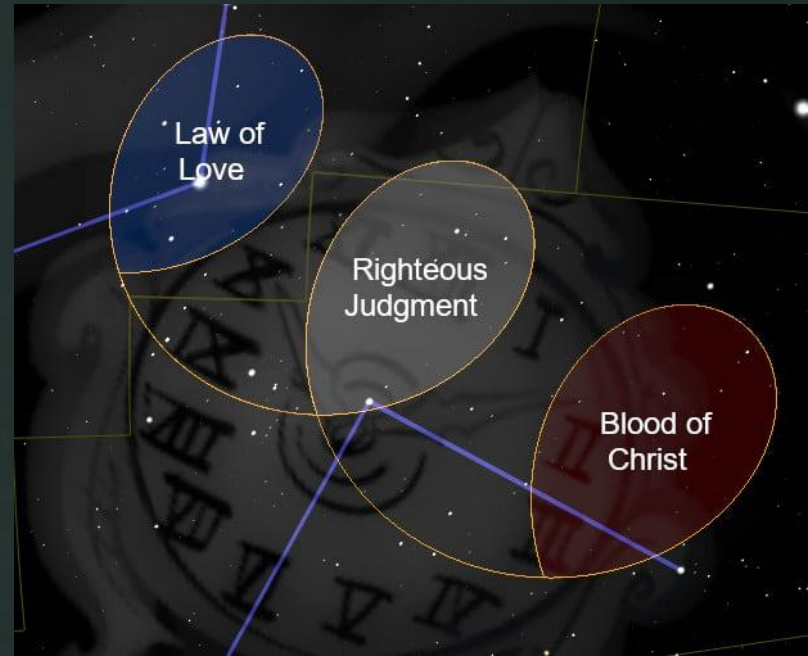

Our sister’s 2019 dream emphasizes 3 o’clock like my 2024 dream repeating three TIMES “With all My heart”

The Master Key

In all the years of research, we did not consider that Jesus could come as late as 2027. What, if we would repeat the rhythm of the strange heartbeat of God THREE TIMES?

2019, 2020, 2021 KEY
2022, 2023, 2024 KEY

2025, 2026, **2027 MASTER KEY?**

The Secret of the number 13

The dream time was 3 hours and **13** minutes (and 43 seconds).

Does 13 have anything to do with God's true calendar of the Bible?

Yes, there are so-called leap years in God's calendar. Though they don't adjust calendar time to solar time by adding a February 29 every 4 years but by adding a 13th lunar month (Adar II) to the end of certain years.

And that happens according to a specific rhythm. Guess it!

The Years of the 13th Month

We have a wonderful new application that allows us to scroll through all the years calculated by God's true biblical calendar based on the date of Jesus' Crucifixion. This goes back to a groundbreaking study of 2010, "Full Moon at Gethsemane".

According to God's calendar, 13th months have occurred only in the now-discovered "key years" ...

And the next Adar II will occur...

1st Adar II:
March 15 - April 15, 2021
KEY YEAR (BB)

2nd Adar II:
March 12 - April 9, 2024
KEY YEAR (E3)

3rd Adar II
March 10 - April 8, 2027
MASTER KEY YEAR

3:13

So, what did 3:13 in our sister's 2019 dream mean?

It meant the same as the three times "With all my heart" on the clock face in my 2024 dream.

Jesus says:

So, we finally found the year of His second coming. Hallelujah?

"3 TIMES A 13th MONTH LEAP YEAR MUST OCCUR UNTIL I WILL COME BACK."

43 Seconds

We still must account for the 43 seconds of our sister's dream.

If 3 **hours** meant 3 times or **years**, and 13 **minutes** added the specification that we talk about the leap years with a 13th **month**, then the 43 **seconds** must mean **days**.

Before we simply add 43 days to the end of Adar II of 2027, let us break down 43 days in a meaningful way.

The Second Month Pointer

43 days is longer than one lunar month which is averaged to 29 days.

In a biblically correct way, we can write for 43 days:

1 lunar month (29 days)
+ 14 days.

Hence, the 43 days point to the 14th day of the second month because the count must begin after the third Adar II (3:13 + 43 seconds).

The Second Passover Pointer

Passover was commanded by God to take place on the 14th day of the first month (which follows Adar I or in leap years Adar II). See the account in Exodus 12:1–14.

But there's also a second Passover possibility either in the true second month or because Barley wasn't found in the 1st possible month after the spring equinox. See the account in Numbers 9:1–14.

In the many years of study since 2010 we have learned that Jesus likes to take the second possibility for the significant events, and this has a reason...

His Crucifixion on May 25, 31 AD, also happened in the second possibility and with surety after an Adar II year.

The Second Coming Date

Passover was the symbol for the sacrifice of all sacrifices. Jesus' death on the Cross would give us salvation, and so it is fitting to reap us from the earth on a Passover date.

Passover of the second possibility in **2027** falls on **May 21**.

Again, it is a **Friday** exactly as it was in AD 31.

The 7 days of unleavened bread (northern hemisphere) and the 7 days of Tabernacles (southern) account for the 7-day travel to the Orion Nebula described in various articles.

43 in Biblical Numerology

While 43 isn't a primary prophetic number, theologians and numerologists often break it down into its constituent parts:

The Number 4: Represents the creation of the material universe (e.g., the four corners of the earth, the four seasons, the four gospels).

The Number 3: Represents divine perfection, the Holy Trinity, and divine wholeness (e.g., the resurrection on the third day).

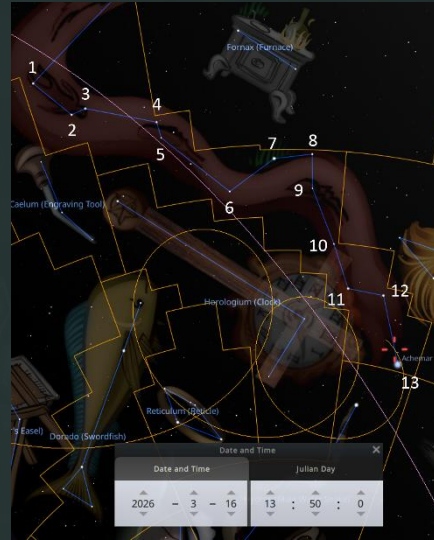

Together, some scholars suggest the blend represents **spiritual stability tested and sustained by divine purpose.**

Three Witnesses

... AT THE MOUTH OF TWO WITNESSES, OR AT THE MOUTH OF THREE WITNESSES, SHALL THE MATTER BE ESTABLISHED. (DEUTERONOMY 19:15)

The matter is established. Three witnesses have spoken the same time.

- ✓ 3 for the Father, the Son, and the Holy Spirit.
- ✓ 13 for the end of the covenant (12) and a new beginning (+1).
- ✓ 43 for crossing Jordan and reaching the Holy City in heavenly Cannan.

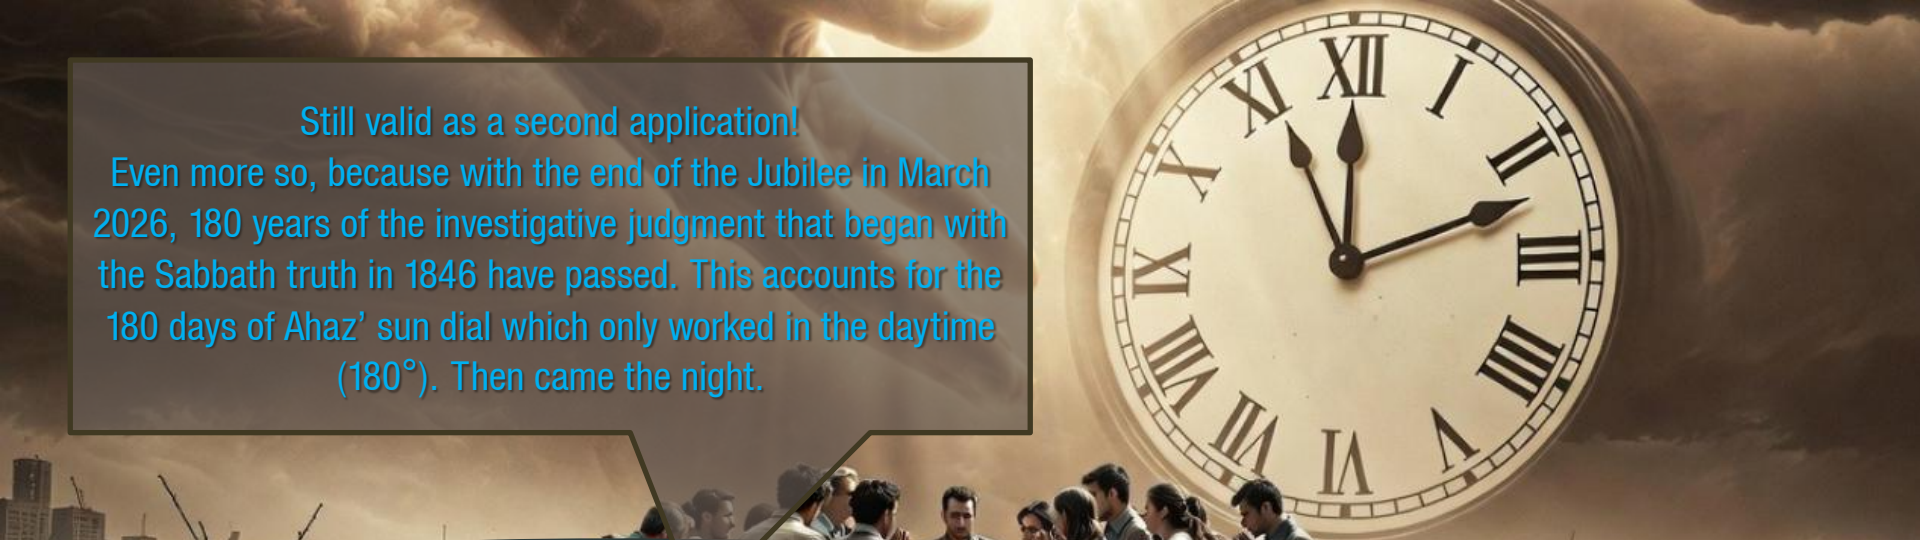

This heavenly situation of the 3rd part is still valid because E3 will have just turned one more round and reached almost the same position on the same side of Eridanus on May 21, 2027— even nearer to the midnight point of the Horologium.

Yes, Seven Years!

On Orion's clock one hour is 7 years, but in the dream, Orion would not tell the time. With the “boy in the River” representing the sacrifice of **Jesus**, the time is 3:13:43 confirming **His return on the anniversary of His Crucifixion 3 times 13th-month years and 43 seconds after the dream of our sister!** Since the declaration of the 1st Woe, Coronageddon, on March 11, 2020, 7 years of tribulation will have “passed over.” Did Christianity wake up and feel the heat?

Still valid as a second application!

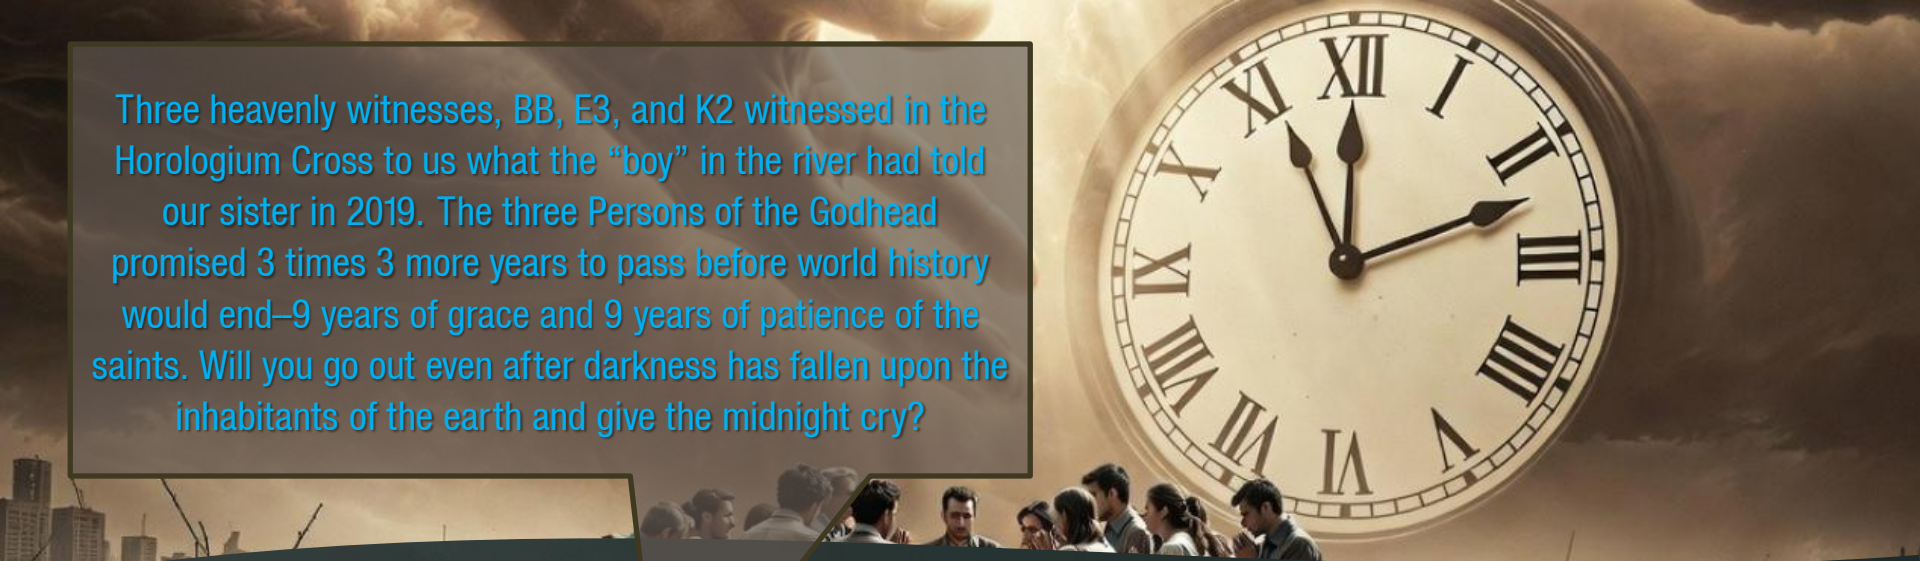

Even more so, because with the end of the Jubilee in March 2026, 180 years of the investigative judgment that began with the Sabbath truth in 1846 have passed. This accounts for the 180 days of Ahaz' sun dial which only worked in the daytime (180°). Then came the night.

Our sister saw **two keys on one ring**. We did two key prayers in this ministry. One for more time on October 19, 2016, and one for the shortening of time on December 16, 2025.

King Hezekiah was asked if he would rather see the clock going forward 10 steps or backwards. When we asked for more time for the sealing of the 144,000, God's clock went backwards 10 years, and so we had to endure 10 years until 2026. This is how God made us a **sealing ring**.

Then we saw the danger and horrors of the time of Jacob's trouble that could take between 7 and 10 years according to 3I/ATLAS' trajectory out of the solar system. This time, we prayed for the shortening of time which would allow for only 3 months instead of 7 or 10 years.

God is Time!

Three heavenly witnesses, BB, E3, and K2 witnessed in the Horologium Cross to us what the “boy” in the river had told our sister in 2019. The three Persons of the Godhead promised 3 times 3 more years to pass before world history would end—9 years of grace and 9 years of patience of the saints. Will you go out even after darkness has fallen upon the inhabitants of the earth and give the midnight cry?

In my dream on Nevis, I had to write three times on the upper part of the alarm clock: *With all My Heart*

God is Love!

Three heavenly witnesses confirmed to us that also our recent prayer in which we offered our eternal lives—as Moses and Paul once did—has been heard.

Will you go out and testify for God, with all **YOUR** heart, that He is Love, or would you insist that suffering must go on for **another** seven long years? Choose wisely!
