FINAL WARNING

August 25

Yormary Dickinson

A solemn last warning is being proclaimed: the day of God's wrath is approaching, and this PDF article explores the significance of a blood moon tetrad as the prophetic countdown pointing toward that day. In connection with the prophecy of Joel 2, we examine the biblical signs surrounding the coming "day of the LORD" and the promised work of Elijah before that great and terrible day. Who shall be able to stand?

Solstices and Equinoxes

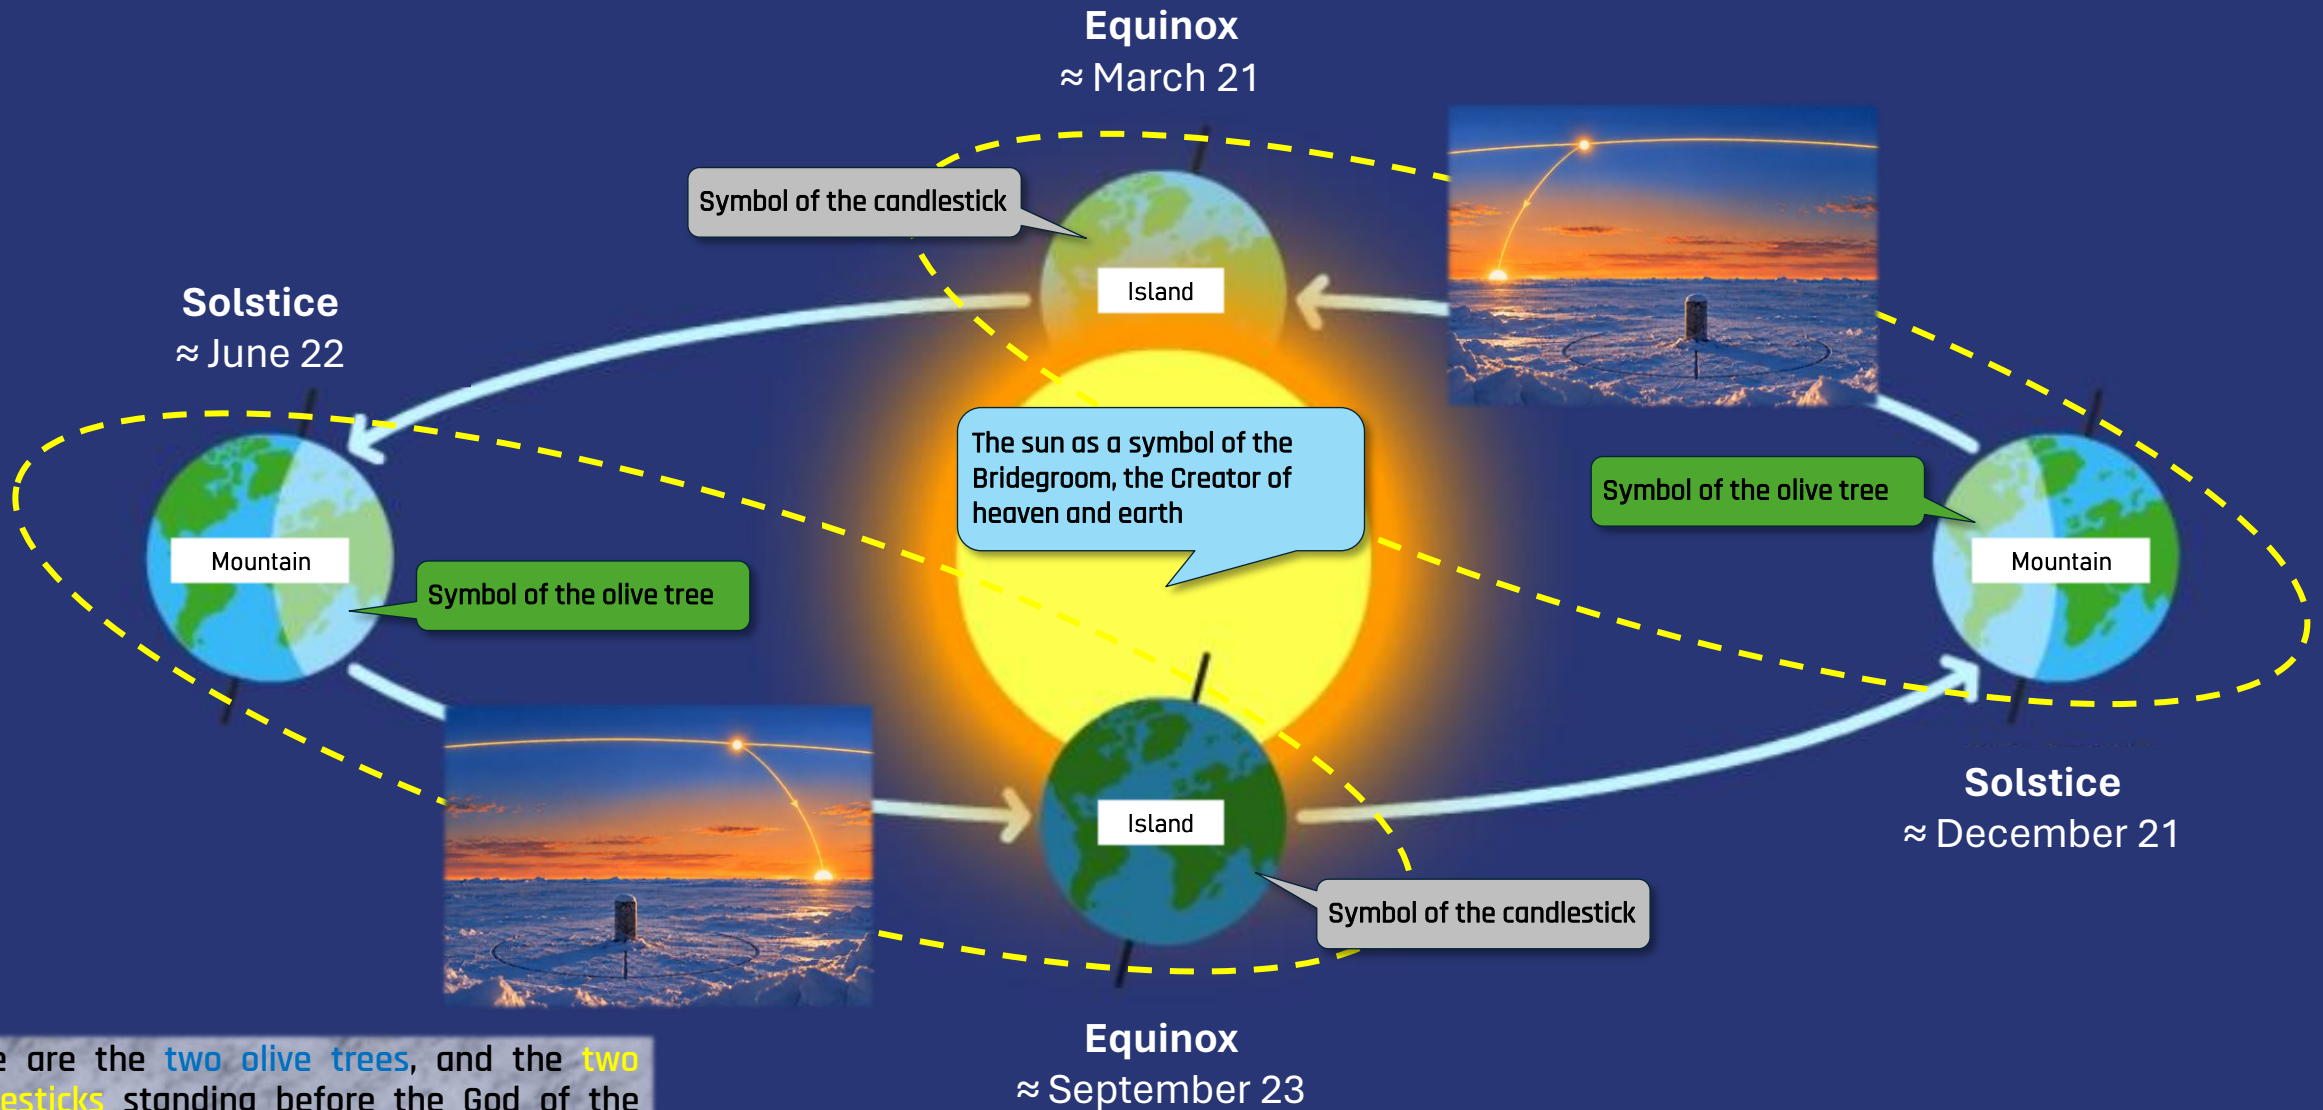

These are the **two olive trees**, and the **two candlesticks** standing before the God of the earth. (Revelation 11:4)

Then answered I, and said unto him, What are these **two olive trees** upon the right side of the candlestick and upon the left side thereof? And I answered again, and said unto him, What be these two olive branches which through the **two golden pipes** empty the golden oil out of themselves? And he answered me and said, Knowest thou not what these be? And I said, No, my lord. Then said he, **These are the two anointed ones, that stand by the Lord of the whole earth.** (Zechariah 4:11-14)

And before the throne there was a sea of glass like unto crystal: and in the midst of the throne, and round about the throne, were four beasts full of eyes before and behind. And the first beast was like a lion, and the second beast like a calf, and the third beast had a face as a man, and the fourth beast was like a flying eagle. (Revelation 4:6-7)

Their Enemies Behold Them

As counterparts to the two witnesses, Venus and Saturn form the clearest pair among the classical lights. The sun, moon, and other planets play different roles and would blur the contrast.

Why these two?

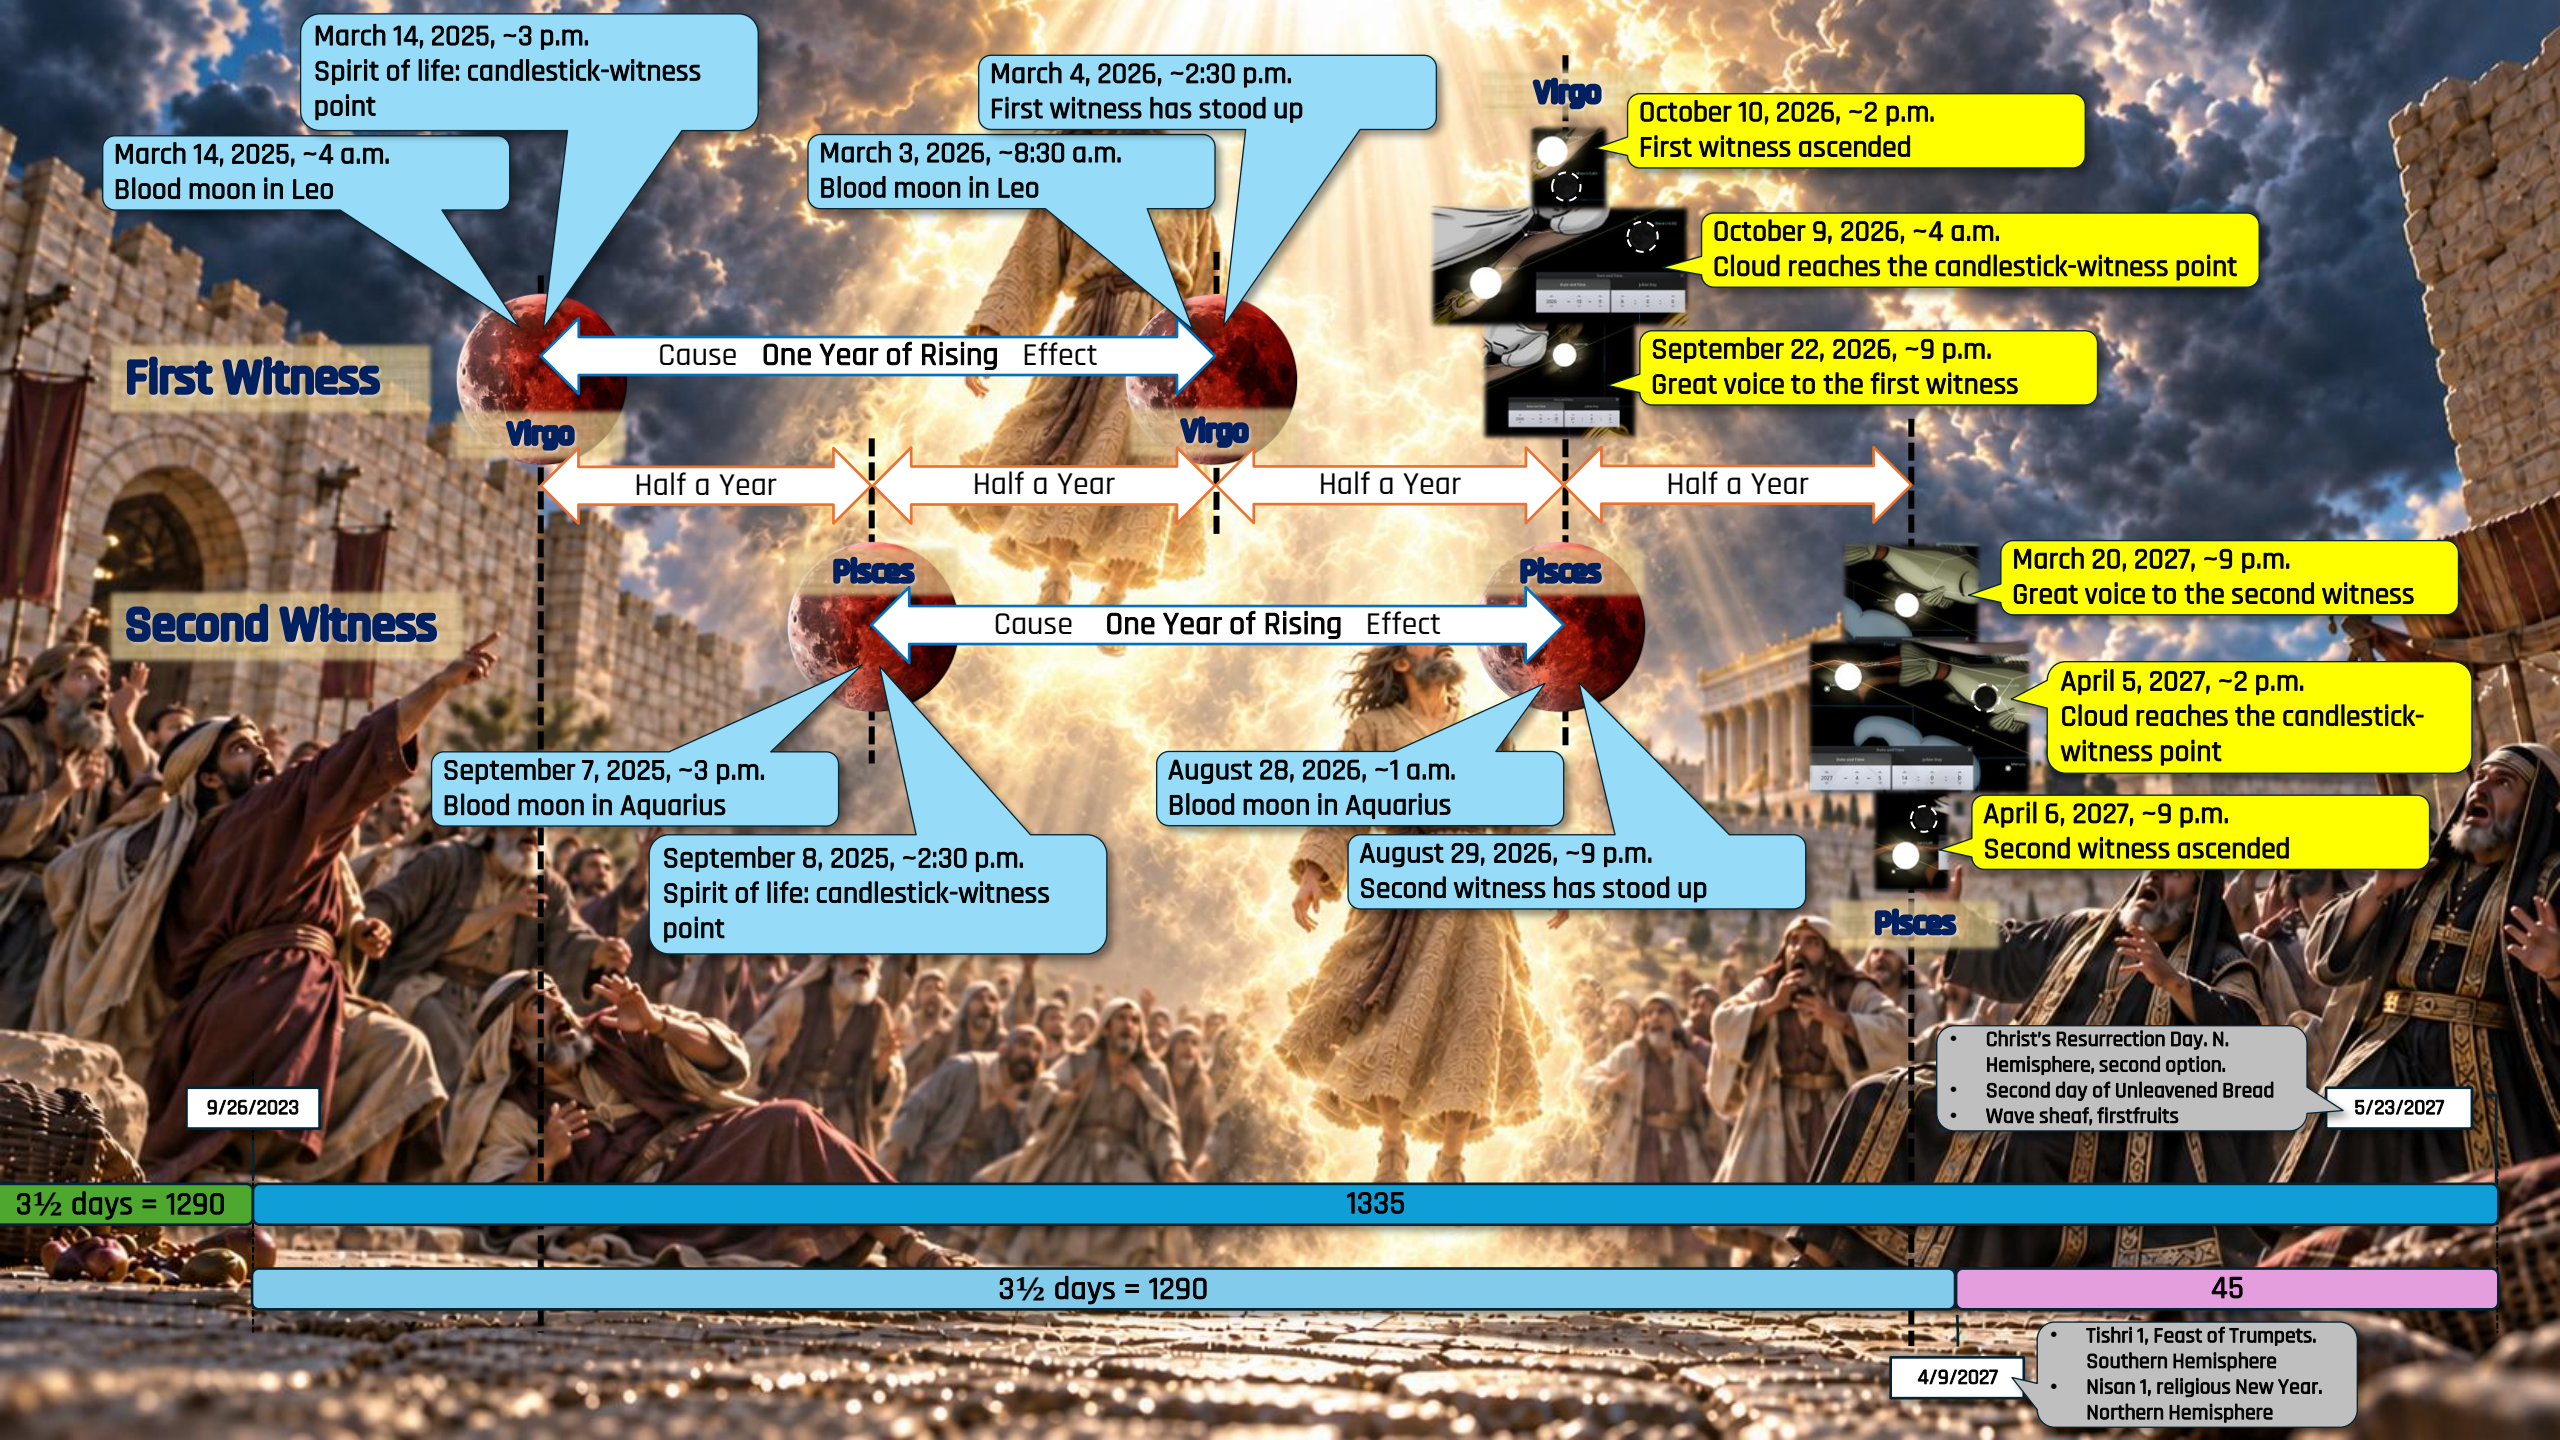

The two witnesses are not just any prophets, but two standing candlesticks and olive trees before the Lord of the earth: steadfast, sustained by the Spirit, with power over heaven and plagues, killed, dead for three and a half days, then alive and ascending in the cloud. **Their counterparts must therefore be two wandering lights that imitate or reverse these exact traits.**

Venus is the only planet that bears the same title as Christ and reflects the same fall as Lucifer. It is the brightest wandering star, both morning and evening star. Its synodic cycle—appearing, sinking into the sun, and reappearing on the other side—parodies death, disappearance, and “resurrection.” Against the candlesticks it sets brilliance; against sackcloth, beauty; against fire from the mouth, seduction, under which people dance while the witnesses lie dead in the street. No other planet has this double character so explicitly in Scripture.

Saturn is the only planet the Bible names as Israel's idol star (Chiun/Kijjun/Rephan - Amos 5:26 and Acts 7:43). It is the slowest visible wandering star, lord of the appointed time and of bondage, and in the ancient Near East it demanded child sacrifice and astral worship, like Molech. The witnesses have power while they prophesy; the beast prevails only when their testimony is finished. Saturn is the power that declares the appointed time ended and binds the congregation to times and systems rather than to the Lord of the earth. Its rings and long orbit (about 29½ years, mirroring the lunar month) emphasize limitation and false “rest” (Shabbati), not the true Sabbath.

In summary: brilliance without permanence and time without life. Two wandering stars against two candlesticks. This pair is more precise than any other.

To Be Watched!

(13) And the same hour was there a great earthquake, and the tenth part of the city fell, and in the earthquake were slain of men seven thousand: and the remnant were affrighted, and gave glory to the God of heaven.

(14) The second woe is past; and, behold, the third woe cometh quickly.

(15) And the seventh angel sounded; and there were great voices in heaven, saying, The kingdoms of this world are become the kingdoms of our Lord, and of his Christ; and he shall reign for ever and ever.
